I started playing the guitar when i was in the 3rd grade. I played the guitar for almost 14 years, but i stopped for a while to focus on some other things. I was inspired and began to practice again and i decided to continue playing the guitar. I do not sell my e-books, but i did find a way to share them. Every e-book I wrote on my blog is available on my site and I also offer services that are specific to guitar students. I hope that they can be useful to you as well. On my site, you will find some of my works (e-books and services), some of my music, some guitar lessons and some free e-books and programs.
